

QUIK PIK™ MULTI-PURPOSE GRAPPLE

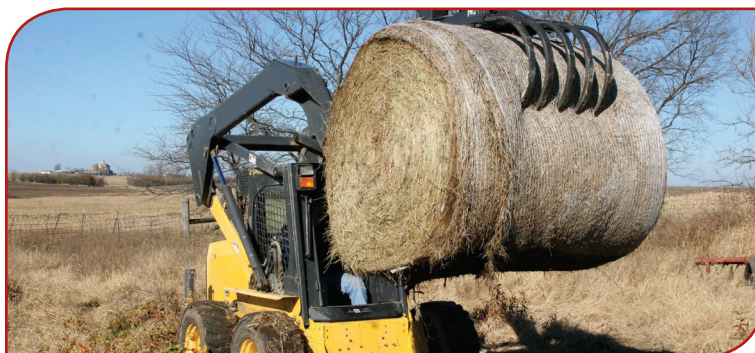

For Skid Steers

The new **Bradco Quik Pik™ Multi-purpose Grapple**, by Paladin, is a cost-effective alternative to purpose built material handling attachments.

- The Quik Pik™ is the only attachment versatile enough to manage brush, logs, hay bales, rocks, pipe/culverts, as well as standard pallet jobs. Quick Pik™ has 3-times the brush material capacity of conventional grapples.
- The base unit with its patented dual hydraulic boom and curved tines allow safe handling of materials such as hay bales, metal cylinders, boulders, culverts, etc. Additional stability is provided because the curved tines wrap around and against irregular-shaped and curved loads.
- Combine the base unit with the optional fork tines and/or brush rake and you have the material handling capability of multiple attachments such as pallet forks, brush grapples, bale spikes, manure forks, and log grapples all in one multi-purpose attachment.

QUIK PIK™ MULTI-PURPOSE GRAPPLE

Base Unit - Dual Hydraulic Boom and Tines

The patented Dual-Hydraulic Boom and Curved Tines can be closed and extended to grasp irregularly sized loads and materials. This functionality is available with the Base Unit, optional Fork Tines and the optional Brush Rake.

Tines closed
(Base Unit)

Tines and boom extended

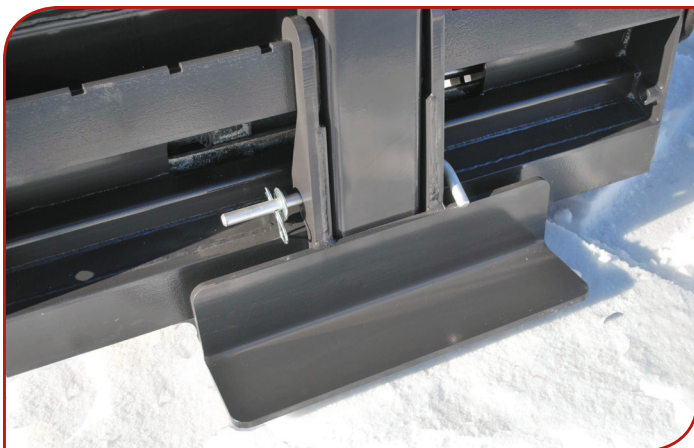

Grasping load with boom and tines closed

The curved tines close on and stabilize irregular loads.

Base Unit - Landscape Shoe

The Landscape Shoe provides a platform to stabilize loads against the face-plate. It can be easily removed to allow attachment of the optional Brush/Manure Rake assembly.

The Landscape Shoe can be left in place with the optional Fork Tines to provide additional support when handling hardscape materials, pallets, etc.

Optional Brush Rake

With the Brush Rake installed, large volume material handling chores such as woody debris, manure, chips, etc. are easy.

Handles more than three times the volume of conventional grapples.

The Brush Rake is easy to install and locks securely into place.

Steel hooks on the Brush Rake ride an ITA style rail mounted on the front of the base unit.

Optional Fork Tines

Add the optional Fork Tines and you get a full featured pallet fork attachment with stabilizing tines for irregular loads.

Grab and move large objects like telephone poles.

Grasp and control potentially unstable loads.

QUIK PIK™ MULTI-PURPOSE GRAPPLE

WHY CHOOSE THE BRADCO QUIK PIK™ MULTI-PURPOSE GRAPPLE?

- The patented Quik Pik™ Multi-Purpose Grapple is the only attachment of its kind currently available.
- The Quik Pik™ has 3-times the brush capacity of a conventional grapple.
- The base unit when combined with either the optional fork tines or brush rake can perform all types of material handling jobs.
- The versatile Quik Pik™ is a true multi-purpose tool that can replace multiple attachments such as: pallet forks, brush grapples, log grapples, pipe handlers, bale spears, hay grapples, rock grapples, and manure forks.

Specifications	Base Unit	Brush Rake (Optional)	Pallet Fork Tines (optional)
Order Number	30548-0022	119118	See Price Guide
Weight	700 lbs.	382 lbs.	145-186 lbs.
Overall Height	58"	36"	1.38"
Overall Length	39.9"	67"	36", 42", 48"
Tine Width/Spacing	2.6"/3.75"	1.5"/8.5"	
Number of Tines	5	8	
ITA Bar Width			44.94"
Grapple Open	62.38"		
Grapple Closed	23.57"		
Grapple Reach	50.55"		
Lifting Capacity (max)			4,000 lbs.

Manage irregular objects like steel tanks and scrap metal.

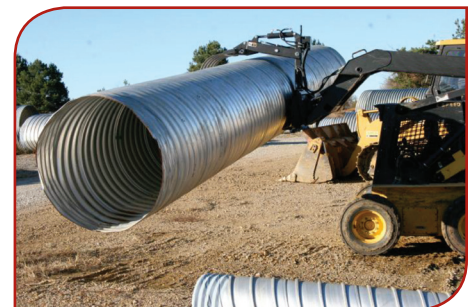

Grabbing and building retaining walls is easy, even with large cut stones or blocks.

Grab and move large logs and tree trunks.

Move and place plastic and metal culverts with ease.

When work needs to get done you need to be able to depend on your equipment. Our Quik Pik™ Multi-Purpose Grapple is designed for maximum reliability, durability, and productivity.
