

Box Manure Spreaders

TRADITION IN PROGRESS

Founded with spirit

Farming. There is no longer day, no harder work. It's a profession to be proud of. Pequea was founded in that spirit to benefit farmers everywhere.

Shaped by vision

We are committed to the future of farming. It is our vision to remain a leader in the industry, providing the best products we possibly can.

Built with pride

Building the best spreaders is not just a job—it's our passion. We are proud of every piece of farm equipment that leaves our plant.

What Pequea offers you in every spreader

Get more value for your money

Simple and easy to operate and maintain

A Poly floor and T-rod chain makes these spreaders durable and long lasting

2 speed gearbox with clean out

Strong and durable 1/4" beater paddles, fully welded 10 gauge box

125P

Pequea box spreaders are built to haul and spread a variety of manure. Whether you have a small farm or large stables, the Pequea box spreaders can handle it. From semi-solid manure to pen pack, Pequea spreaders are built to handle it with the durability you need and at the value you expect.

Our box spreaders are fully welded unibody construction with tongue and groove poly floor, low loading height with flare, and a two-speed gearbox with cleanout. Stout beaters with replaceable paddles not only offer an even spread pattern but help extend the life of the machine. With a variety of options to suit your needs, the Pequea family of box spreaders are the right choice for your operation.

The 125P offers the following options:

Top Beater, Hydraulic End Gate, Fine Spread Pan

16' 6" Overall Length

Our large PTO model manure spreaders include 2 speed gearboxes with a neutral and cleanout setting.

Offers eight aggressive beaters that can be detached anytime for easy replacement. The beater has been engineered for maximum use with durable 1/4" steel beater.

175P

Pequea box spreaders are built to haul and spread a variety of manure. Whether you have a small farm or stables the Pequea box spreaders can handle it. From semi-solid manure to pen pack Pequea spreaders are built to handle it with durability you need and at the value you expect.

Our box spreaders are fully welded unibody construction with tongue and groove poly floor, low loading height with flare, and a two-speed gearbox with cleanout. Stout beaters with replaceable paddles not only offer an even spread pattern but help extend the life of the machine. With a variety of options to suit your needs the Pequea family of box spreaders are the right choice for your operation.

The 175P offers the following options:

Top Beater, Hydraulic End Gate, Fine Spread Pan

17' 8" Overall Length

The poly floor helps prevent freezing and never wears out.

The 175P model has 10 removable beater paddles

250P

Pequea box spreaders are built to haul and spread a variety of manure. Whether you have a small farm or stables the Pequea box spreaders can handle it. From semi-solid manure to pen pack Pequea spreaders are built to handle it with durability you need and at the value you expect.

Our box spreaders are fully welded unibody construction with tongue and groove poly floor, low loading height with flare, and a two-speed gearbox with cleanout. Stout beaters with replaceable paddles not only offer an even spread pattern but help extend the life of the machine. With a variety of options to suit your needs the Pequea family of box spreaders are the right choice for your operation.

The 250P offers the following options:

Tandem Axle, Top Beater, Hydraulic End Gate, Fine Spread Pan

20' 5" Overall Length

The optional fine spread pan, available on all models, prevents finer or dry manure from falling out of the box in transit and in the field.

The tandem axle option provides better performance in harsh condition like rough terrain or wet fields.
