

# 4-N-1 Buckets

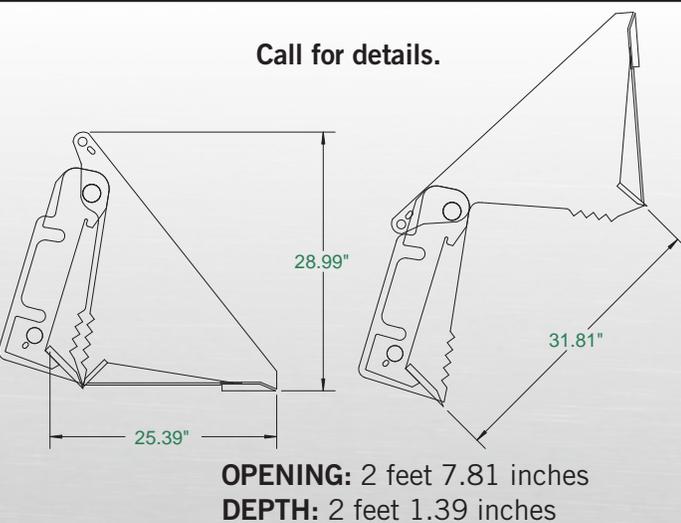

Picture shown with optional weld on teeth.

The 4-N-1 Buckets are very versatile attachments for your skid steer and are ideal for grappling, dozing, backfilling, loading, digging and fine grading.

The cylinders on our Light Duty & Heavy Duty 4-N-1 Buckets have a 2.5" bore by 8" stroke. They are equipped with a 3/4" x 6" cutting edge and 1/2" x 4" at all other ground engaging points. Our X-treme 4-N-1 Buckets have cylinders with a 3" bore by 8" stroke. They are equipped with a 1" x 6" cutting edge and 3/4" x 6" at all other ground engaging points. They are also built with top quality steel, oversized pins and bushings, with grease fittings at every pivot point. Every unit exceeds the lifting capacity of the skid steer machine it is used on.

- 2.5" bore by 8" stroke cylinders on Light Duty and Heavy Duty
- 3" bore by 8" stroke cylinders on X-treme
- Grease fittings at every pivot point
