

X-treme Rock Grapple

Our X-treme Rock Grapple is great for sifting through dirt in order to remove rocks. With the tines set at 2-1/2" apart, you pick up most everything but the dirt. You can also pick up large rocks, logs, brush or just about anything else by use of the grapples. We use twin 2" bore by 10" stroke cylinders rated at 4,000 psi on all of our grapples.

- Great for sifting dirt to remove rocks
- 2" bore by 10" stroke cylinders
- Available sizes: 63", 72", 81"
