# 410 SERIES

All Brown 410 Series Rotary Cutters are engineered to give you years of dependable service and performance.

The Only 8 Foot Single Spindle Quick Hitch Compatible Cutter on the Market!!

Brown Rotary Cutters are designed to be rugged machines that can handle heavy cutting. Brown Rotary Cutters are perfect for pasture clipping and stalk cutting. The heavy construction is tough enough to cut heavy brush and trees up to two inches in diameter. Easy cutting adjustments allow cutting heights from two to twelve inches. The heavy construction and balanced blade carrier keeps vibration to a minimum and the closed rear maximizes mulching of the material. For added operator safety, we include a rubber shield on all 410 Series Rotary Cutters as standard equipment. Available options include, front and rear chain guards for all models. All 410 Series models are quick hitch compatible.
