

JAWZ™ GRABBING TOOL

For Skid Steers, Compact Tool Carriers, Compact Tractors

Paladin Attachments is your single source for high quality attachments for skid steers, compact tool carriers, and excavators used for vegetation/land management, landscaping, soil preparation, material handling, and construction.

The **Bradco JAWZ™ Grabbing Tool**, by Paladin, is a patented hydraulic attachment for removing invasive trees and shrubs of all sizes.

- Vegetation is removed completely, in a single pass, including the roots without resorting to burning, cutting or herbicides used in traditional land and vegetation management.
- Dual cylinders power the steel fingers or “pinchers” facilitating the application of optimal leverage and lifting power by the loader arms.
- Ideal for farmers, ranchers, urban land management, construction contractors, landscape contractors, timber/forestry and land conservation.

*JAWZ™ is a trademark owned by Starhill Solutions, Inc.
for its grabbing tool products.*

JAWZ™ GRABBING TOOL

Can be used to move and place large rocks, boulders and logs; pull and place stakes and fence posts. The edge pattern facilitates gripping irregular objects.

Mini-JAWZ™ for Compact Tool Carriers

Standard-JAWZ™ for Skid Steer Loaders and Compact Farming Tractors

Specifications	Mini-JAWZ™	Standard-JAWZ™
Order Code	30430-0961	30440-0022
Weight	300 lbs	516 lbs
Overall Height	16"	19"
Overall Length	34"	41"
Overall Width	30"	47"
Maximum Jaw Opening	26"	33"
Maximum Lifting Weight*	2340 lbs	3000 lbs

* JAWZ™ Grabbing Tool only - refer to prime mover manual for maximum lifting capacity of the machine

*When work needs to get done you need to be able to depend on your equipment.
Our material handling attachments are designed for maximum reliability,
