SKID STEER MOUNTED SELF-CONTAINED **POST DRIVER**

Professional – Grade Power and Performance

SKID STEER MOUNTED SELF-CONTAINED POST DRIVER

You asked for it and Shaver delivered! The all new Self-Contained Post Driver designed specifically for Skid Steers. The new Patent - Pending Master Cylinder allows for quick TWO HOSE hookup. No five gallon tank, no motor, no pump! Just a pre-mounted master cylinder.

This new Self-Contained Post Driver will change the market for skid steer mounted drivers. With its attach and go simplicity, and its ability to deliver 100,000 lbs of force on impact, you can drive a 5" post in under 15 seconds. The new design makes it easier than ever to use a Shaver Driver. Mounted with our Quick-Tach system, all you need to do is hook up the two hydraulic hoses and you're ready to pound posts all day long!

By eliminating the five gallon reservoir tank we were able to move the base plate closer to the mounting plate, improving stability. The Stabilizer Leg gives the driver a more stable platform, which improves speed and accuracy, while putting all the force on the driver itself. Increasing stability, accuracy and lessening wear and tear on the skid steer. When you're done for the day the handy storage legs allow you to store the driver in the "hook-up ready" position.

Shaver Manufacturing is a leading manufacturer of fencing equipment. We manufacture a complete lineup of post drivers, post hole diggers, stump grinders and log splitters. We're proud of the fact that our equipment is made in the Heartland of America – Graettinger, Iowa.

Shaver Manufacturing Company / PO Box 358 / Graettinger, Iowa, 51342
