

Adapter Plates

Universal Skid-Steer Mount to Category I or II 3-Point Hitch

FEATURES:

- permits use of tractor 3-point implements such as landscape tools on skid-steer loaders
- built rugged to accommodate a wide variety of implements
- adjustable top hook and sliding lower blocks make implement attachment easy
- quickly attaches to skid-steer loader and pins on the 3-point implement

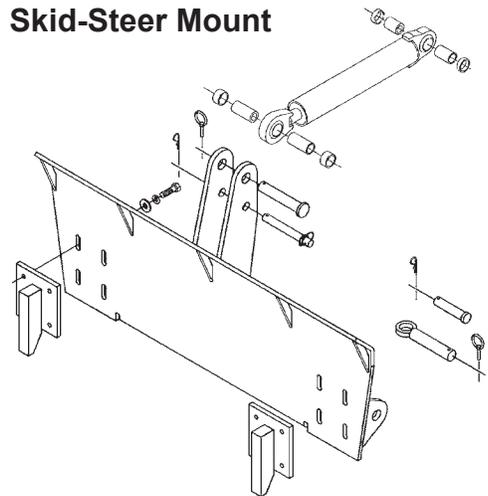

The Power of Combined Excellence

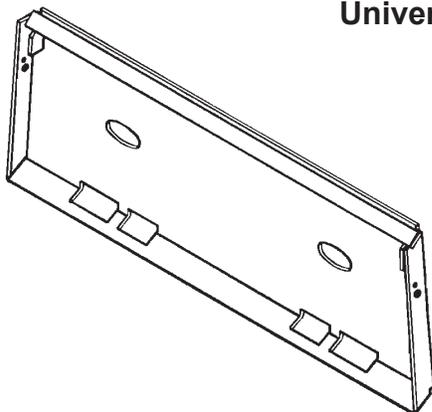

Category I or II 3-Point to Universal Skid-Steer Mount

FEATURES:

- permits use of skid-steer attachments such as pallet forks and landscape tools on 3-point tractors
- rugged design and positive locking wedges
- quickly pins to tractor 3-point and wedge attaches to your skid-steer attachments
- use with or without top link cylinder kit (shown)
- top link cylinder kit replaces the tractor top link for hydraulically positioning attachments

Universal Skid-Steer Weld-On Adapter

FEATURES:

- permits use of non-universal attachments on skid-steer loaders with universal hitch
