

FRONTLINE

UNIVERSAL THUMBS

UAT SERIES

4 Models for Ag & Commercial

For 3-Point & Subframe Backhoes, Skid-Steer Backhoes, Mini-Excavators and Commercial Backhoe Loaders

- Claws are made from T-1 high strength steel
- Two pin adjustable working positions allows for handling a wide variety of material
- Mounting requires welding unit to backhoe dipperstick
- Folds flat against the dipperstick for storage
- Reinforced bracing for added strength
- Shipped preassembled for ease of installation

Universal Thumbs are designed to increase the productivity and versatility of your 3-Point and Subframe Backhoes, Skid-Steer Backhoes, Mini-Excavators and Commercial Backhoe Loaders. Ideal for landscapers and contractors. Dig and load with the same machine. These rugged built rigid thumbs are designed to do a wide range of material handling jobs such as: land clearing, demolition, brush removal, rock, railroad tie and pipe placement, loading and unloading material.
