TREE & SHRUB GRAPPLE

For Compact Tool Carriers

Paladin Attachments is your single source for high quality attachments for skid steers, compact tool carriers,and excavators used for material handling, soil preparation, construction, and site preparation.

The Bradco Tree and Shrub Grapple is designed to easily remove small trees, shrubs, and ornamentals without shovels, axes, chains, or stump grinders.

- Hydraulic power replaces the need to manually dig out, chop, and grind.
- The entire stump, tap, and secondary root system is removed in a single step. No extra digging is required.
- Grasp and move vegetation for clean-up and collection.
- Constructed of 1/2 inch AR 400 and AR 235 high-strength steel for maximum durability and reliability.
- Save time and labor while increasing productivity.
