Utility Trailers

From hauling compact tractors to commercial landscape equipment, the value built into Pequea's utility trailer is apparent from the first time you lay eyes on it. The angle-iron frame has proven to be the longest lasting design on a Pequea utility trailer. This rigid structure is the most practical for securing equipment with straps and chains, not to mention the angle-iron won't rust from the inside out like tubing or pipe frames. Just a couple of features that make a Pequea utility trailer a wise investment.

Utility Trailers

Specifications	510	610	8012S	8012T	8014T	8016T	8018T	8020T
